COVID-19 live updates: Quebec reports 65 cases, 1 death – and more than 100,000 vaccinations

Meanwhile, vaccinations are still recommended for people with immune systems weakened by disease or certain medications.

Today's coronavirus news: Ontario reporting 143 cases of COVID-19, 10 deaths; Cases surge to 6-month high in Tokyo a week before Olympics

Thanks to a concerted community effort, COVID-19 cases are steadily falling and more ... we can stay healthy and keep our schools open. — Dr. Dan Brennan is a board-certified pediatrician ...

Dr. Dan Brennan: Prescription for a Healthy Classroom in COVID-19 Era

Fully-vaccinated Quebecers are expected to have certain benefits over those who aren't. Later today, the province's health minister will explain how that will work. Here's what you need to know.

COVID-19 in Quebec: What you need to know on Thursday

From art and editorials to personal narratives, profiles and podcasts, a list of the nine contests — plus additional weekly and monthly challenges — we're running this year. By The Learning ...

The Learning Network

The health ministry said the Clic santé platform will continue to ... public health director Dr. Mylène Drouin announced Monday. Updates will be published on Mondays. The change comes after ...

Coronavirus updates, June 28: Clic Santé to offer more flexibility rebooking second doses

The highly contagious delta variant now accounts for more than 51% of COVID-19 cases in the U.S., according ... the vaccinated and the unvaccinated America," says Dr. Paul Offit, an infectious ...

Delta Is Now The Dominant Coronavirus Variant In The U.S.

Reports of rare cases of myocarditis, an inflammation of the heart muscle, in people under 30 who received a second dose have also raised fears. Dr. Catherine Hankins, co-chair of the COVID-19 ...

Quebec accelerates timeline for teenagers to get fully vaccinated

Quebec's public health director, Dr. Horacio Arruda, said getting two doses is the best way to keep the virus at bay, as a single dose is only 33 per cent effective against the highly contagious delta ...

Quebecers who received Moderna, AstraZeneca vaccine can move up 2nd dose appointments

SSM hospitalizations have increased in the past month as Covid-19 cases have climbed, Dr. Wulff said. Continued positive results and global monitoring of the vaccines' rollout have underscored ...

Hospitals Pressure Employees to Get Vaccinated as Covid-19 Variants Spread

Covid-19 strain known as Delta is in at least 60 countries including the U.S. and likely to spread world-wide, Covid-19 Genomics UK Chair Dr. Sharon ... to brace for new case surges and health ...

Delta Covid-19 Variant Gains Ground Among the Unvaccinated

?Devancement rdv 2e dose 12-17 ans ?Pour l'instant, il n'est pas possible de devancer son rdv sur Clic santé pour ce groupe d'âge. ?La recommandation est 8 semaines et ...

No moving up the second COVID-19 dose for Quebec teens on Clic Sante

People in Quebec can now book a second COVID-19 vaccine dose through the Clic Santé website at a different location ... effective July 7. How many cases are there? As of Tuesday, 27,660 Ottawa ...

What you need to know about COVID-19 in Ottawa on Tuesday, June 29

Quebecers can now book 2nd shots after four weeks. With more than 2.2 million doses on hand, province hopes to ramp up the vaccination rate.

COVID-19 updates, July 6: Quebec launches hotline for people who can't download proof of vaccination

Viral loads are reduced among the vaccinated, and many breakthrough cases — those who test positive for COVID-19 after being vaccinated — have no or very few symptoms, said Dr. Tilahun ...

Delta variant poses increased risk for unvaccinated

"James is a trusted advisor to his clients and has been one of the firm's leaders for many years now," said NERA President Dr. Lawrence Wu. "His dedication to developing the next generation of ...

NERA Appoints James Mellsoy New Chair of Antitrust and Competition Practice

Health Minister Christian Dubé made the announcement Tuesday, saying those aged 50 and up can now reschedule their appointments on the government's Clic-Santé website. Dubé said confirmed ...

COVID-19: Quebecers can bump up 2nd doses of Moderna, AstraZeneca vaccine

For anyone looking to reschedule their appointments, Clic Santé will be active on: June 21 for those aged 30 and up; June 22 for those aged 25 and up; June 23 for those aged 18 and up.

Quebecers aged 35+ can now book their 2nd COVID-19 vaccine appointments

BBC coverage can be live stream via BBC iPlayer, while S4C's can be watched via S4C Clic. You can also follow updates from the game in Baku on our live blog which will be on WalesOnline's football ...

Includes the society's Annual reports.

This book fills an important niche in the market providing practical expert advice on the involvement of service users - patients, carers and the public - in nursing and healthcare research. An invaluable guide for anyone working or involved in nursing and healthcare research, this book provides a step-by-step guide to the principles and process of involvement, including understanding the rationale for involvement, designing involvement, working with service users, and evaluating what has been achieved. With illustrations, worked examples and tool sheets throughout, this evidence-based guide uses real life examples from recent research studies in health and social care research, thus relating theory to practice in a meaningful way. The Handbook of Service User Involvement in Nursing & Healthcare Research introduces a wide range of key issues, including: Why? Why should researchers involve service users? How? How can researchers and service users work together successfully and productively? Who? Who chooses to become involved in research? How are issues of representation and diversity addressed? When? At what stage should service users be involved in the research process?

A time to reflect on my seventy years of life. Maybe some folks will be interested in my life and the folks I have met, or maybe not. This is a non-traditional memoir, filled with alphabetical vignettes nit chronological ones. I have made a foray into fiction with an asterisk: in those cases where I have marked the vignette as fictional, it might be 100 percent not true, but in many cases I knew of, was part of, or heard from others about the story itself. At any rate, the entire book is my recollection of things past, and as in all recollections, the more distant the memory the clearer the details.

The idea of colliding two particle beams to fully exploit the energy of accelerated particles was first proposed by Rolf Wideröe, who in 1943 applied for a patent on the collider concept and was awarded the patent in 1953. The first three colliders — AdA in Italy, CBX in the US, and VEP-1 in the then Soviet Union — came to operation about 50 years ago in the mid-1960s. A number of other colliders followed. Over the past decades, colliders defined the energy frontier in particle physics. Different types of colliders — proton–proton, proton–antiproton, electron–positron, electron–proton, electron–ion and ion–ion colliders — have played complementary roles in fully mapping out the constituents and forces in the Standard Model (SM). We are now at a point where all predicted SM constituents of matter and forces have been found, and all the latest ones were found at colliders. Colliders also play a critical role in advancing beam physics, accelerator research and technology development. It is timely that RAST Volume 7 is dedicated to Colliders. Contents:High Energy Colliding Beams: What Is Their Future? (B Richter)Proton–Proton and Proton–Antiproton Colliders (W Scandale)Electron–Positron Circular Colliders (K Oide)Ion Colliders (W Fischer and J M Jowett) Electron–Proton and Electron–Ion Colliders (I Ben-Zvi and V Ptitsyn) Linear Colliders (A Yamamoto and K Yokoya)Muon Colliders (R B Palmer) The Photon Collider (J Gronberg)Collider Beam Physics (F Zimmermann)Collision Technologies for Circular Colliders (E Levichev)Andy Sessler: The Full Life of an Accelerator Physicist (K-J Kim, R J Budnitz and H Winick) Readership: Physicists and engineers in accelerator science and industry. Keywords:Colliders;Accelerator Physics;Andrew Sessler;Accelerator Research
