Snakes. Birds and Dreams: Gobekli Tepe and Caduceus By: Toru Nakamura PhD An international economist, Toru Nakamura, PhD has served in consulting and executive roles advising many private and public organizations around the world. Sharing a wide-ranging view is necessary to the future of our troubled world. However, too many social scientists have become increasingly specialized, paying little attention to what other disciplines are discovering and are losing a humanist perspective. In the process, they ignore the imagination and the importance of virtues like love or trust to bind us together. As the twenty-first century began, Dr. Nakamura began to visit some ruins of the world. He was awestruck at the prehistoric ruins called Göbekli Tepe, which was unearthed in the mid-1990s in southeastern Turkey. Later, Dr. Nakamura learned that the Greek symbol of the caduceus, a wand topped with wings and two entwined snakes, likely originated at this remarkable prehistoric site. There, as the last Ice Age was ending, the human imagination that led to the birth of civilization burst out.

The Chemical Wedding of Christian Rosenkrenz, often looked upon as the third Rosicrucian manifesto, has an entirely different tone from the other Rosicrucian documents. Unlike the Rosicrucian manifestoes, which address the transformation of society, The Chemical Wedding is concerned with the inner transformation of the soul. It is a deeply interior work, one which asks the reader to step into its world of symbols and walk with Christian Rosenkrenz along his path of transformation. Despite its importance as a key text of the Western esoteric traditions, this is the first ever contemporary English translation of The Chemical Wedding, made especially for this edition by Jocelyn Godwin. Also included in this edition is an introduction and commentary by Adam McLean, which illuminates the transformative symbolism.

Publishers Weekly In a profound work that pivots from the biggest questions about American history and ideals to the most intimate concerns of a father for his son, Ta-Nehisi Coates offers a powerful new framework for understanding our nation's history and current crisis. Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? Between the World and Me is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, Between the World and Me clearly illuminates the past, bracingly confronts our present, and offers a transcendent vision for a way forward.

From New York Times bestselling author Kelly Elliott comes the gut-wrenching story of a love that transcends all odds—and transforms the deepest pain into the brightest hope. Firefighter and first responder Preston Ward thought he had grown immune to the job's emotional burns.
