The Qin and Han constitute the "classical period" of Chinese history—a role played by the Greeks and Romans in the West. Mark Edward Lewis highlights the key challenges faced by the court officials and scholars who set about governing an empire of such scale and diversity of peoples. He traces the drastic measures taken to transcend, without eliminating, these regional differences: the invention of the emperor as the divine embodiment of the state; the establishment of a common script ...

The Early Chinese Empires: Qin and Han (History of ...

"As the first volume in the History of Imperial China, The Early Chinese Empires sets an authoritative, reliable tone that bodes well for this important new series. The book meets a high standard of historical accuracy and covers an impressively broad range of topics.

The Early Chinese Empires: Qin and Han (History of ...

Ancient China also boasts the longest lasting empire in history. It began with the Qin dynasty and the first emperor Qin who united all of China under one rule in 221 BC. Emperors would continue to rule over China for more than 2000 years.

Early Chinese Empires (History of Imperial China): Amazon ...

In 221 bc the First Emperor of Qin unified the lands that would become the heart of a Chinese empire. Though forged by conquest, this vast domain depended for its political survival on a fundamental reshaping of Chinese culture. With this informative book, we are present at the creation of an ancient imperial order whose major features would endure for two millennia. The Qin and Han constitute the "classical period" of Chinese history--a role played by the Greeks and Romans in the West. Mark Edward Lewis highlights the key challenges faced by the court officials and scholars who set about governing an empire of such scale and diversity of peoples. He traces the drastic measurs taken to transcend, without eliminating, these regional differences: the invention of the emperor as the divine embodiment of the state; the establishment of a common script for communication and a state-sponsored canon for the propagation of Confucian ideals; the flourishing of the great families, whose domination of local society rested on wealth, landholding, and elaborate kinship structures; the demilitarization of the interior; and the impact of non-Chinese warrior-nomads in setting the boundaries of an emerging Chinese identity. The first of a six-volume series on the history of imperial China, The Early Chinese Empires illuminates many formative events in China's long history of imperialism--events whose residual influence can still be discerned today.

This first book in a six-volume series begins at the creation of an ancient imperial order whose major features would endure for two millennia. It illuminates many formative events in China's long history of imperialism, events whose residual influence can still be discerned today.

Early Chinese Empires (History of Imperial China): Amazon ...

In 221 B.C. the First Emperor of Qin unified what would become the heart of a Chinese empire whose major features would endure for two millennia. In the first of a six-volume series on the history of imperial China, Lewis highlights the key challenges facing the court officials and scholars who set about governing an empire of such scale and diversity.

The Tang dynasty is often called China's "golden age," a period of commercial, religious, and cultural connections from Korea and Japan to the Persian Gulf, and a time of unsurpassed literary creativity. Mark Lewis captures a dynamic era in which the empire reached its greatest geographical extent under Chinese rule, painting and ceramic arts flourished, women played a major role both as rulers and in the economy, and China produced its finest lyric poets in Wang Wei, Li Bo, and Du Fu.

A major historical study of the formation, spread and impact of rumor in the early Chinese empires.

A critical new interpretation of the early history of Chinese civilization based on the most recent scholarship and archaeological discoveries.

Early Chinese Empires (History of Imperial China): Amazon ...

After the collapse of the Han dynasty, China divided along a north-south line. Lewis traces the changes that underlay and resulted from this split in a period that saw China's geographic redefinition, more engagement with the outside world, significant changes to family life, literary and social developments, and the introduction of new religions.

Chun-shu Chang uses newfound documents to analyze the ways in which political, institutional, social, economic, military, religious, and thought systems developed and changed in the critical period from early China to the Han empire (ca. 1600 B.C. - A.D. 220). In addition to exploring the formation and growth of the Chinese empire and its impact on early nation-building and later territorial expansion, Chang also provides insights into the life and character of critical historical figures such as the First Emperor (221- 210 B.C.) of the Ch'in and Wu-ti (141- 87 B.C.) of the Han, who were the principal agents in redefining China and its relationships with other parts of Asia. As never before, Chang's study enables an understanding of the origins and development of the concepts of state, nation, nationalism, imperialism, ethnicity, and Chineseness in ancient and early Imperial China, offering the first systematic reconstruction of the history of Chinese acquisition and colonization.

Early Chinese Empires (History of Imperial China): Amazon ...

In a brisk revisionist history, William Rowe challenges the standard narrative of Qing China as a decadent, inward-looking state that failed to keep pace with the modern West. This original, thought-provoking history of China's last empire is a must-read for understanding the challenges facing China today.

Early Chinese Empires (History of Imperial China): Amazon ...

This volume explores the history of China between the Mongol reunification of China in 1279 under the Yuan dynasty and the Manchu invasion four centuries later, explaining how climate changes profoundly affected the empire during this period. The Mongol takeover in the 1270s changed the course of Chinese history. The Confucian empire, a millennium and a half in the making, was suddenly thrust under foreign occupation.

What China had been before its reunification as the Yuan dynasty in 1279 was no longer what it would be in the future. Four centuries later, another wave of steppe invaders would replace the Ming dynasty with yet another foreign occupation.
