The Ford flathead V8 is a V8 engine with a flat cylinder head designed by the Ford Motor Company and built by Ford and various licensees. During the engine's first decade of production, when overhead-valve engines were used by only a small minority of makes, it was usually known simply as the Ford V78, and the first car model in which it was installed, the Model 18, was often called simply the "Ford V'78", after its new engine. Although the V8 configuration was not new when the Ford V8 ...

Ford flathead V8 engine – Wikipedia

The first of the Ford L-head (flathead) V8 engines left the factory on March 9, 1932. This engine used a 90-degree block, with the valves located next to the pistons, pointed upwards. The heads are not truly flat, having four spade-shaped combustion chambers to accommodate the motion of the valves.

The Fabulous Ford Flathead V8 – EngineLabs

The Ford Flathead V-8 engine powered Ford and Mercury vehicles from 1932 to 1954. The Ford Flathead is a valve-in-block engine and the valves open adjacent to the combustion chamber, rather than from the top, as in later engines. The four different V-8 flathead displacement sizes between 1932 and 1953 are 136, 221, 239 and 337 cubic inches.

Ford Flathead V8 Engine For Sale—Vintage Car & Truck Parts

The V8 was marketed as the Model 18 in its initial year, but was commonly known as the Ford V'78. It had the new flathead V8 engine. The Model 18 was the first low-priced, mass-marketed car to have a V8 engine, an important milestone in the American automotive industry. The 221 cu in (3.6 l) V8 was rated at 65 hp (48 kW), but power increased ...

1932 Ford – Wikipedia

The Flathead was the first independently designed and built V8 engine produced by the Ford Motor Company for mass production and ranks as one of the company's most important developments. Before the 1932 introduction of this engine (and the accompanying Ford V-8 automobile), almost all production cars aimed at the average consumer used straight-4 and straight-6 engines.

Flathead City Home Page

Flathead V8 Ford's first important and highly influential engine was the Flathead V8, which they introduced in 1932. In this modern day, it's hard to imagine how advanced this unit was. However, not only was it was the first mass produced V8, it also introduced a whole new technology to the car industry.

14 Best Engines Ever Built By Ford Motor Company

Multicylinder flathead engines were used for cars such as the Ford Model T, the Ford flathead V8 engine and the Ford Sidevalve engine. Cadillac produced V-16 flathead engines for their Series 90 luxury cars from 1938–1940. After WWII, flathead designs began to be superseded by OHV (overhead valve) designs.
