The first range of tractors to feature an integrated electronic performance monitoring and control system, was the Massey Ferguson 3000-Series, launched in 1986, which amongst other things, introduced MF's revolutionary Datatronic system. This system could be programmed to monitor data from the tractor as it worked, using the information to control both wheel slip and the draft operation of ...

~~Used Ford Tractors for sale - Mascus UK~~

The Ford N-series tractors were a line of farm tractors produced by Ford between 1939 and 1952, spanning the 9N, 2N, and 8N models.. The 9N was the first American-made production-model tractor to incorporate Harry Ferguson's three-point hitch system, a design still used on most modern tractors today. It was released in October 1939. The 2N, introduced in 1942, was the 9N with some improved ...
