This modern classic celebrates the tradition of tamales and family bonding at Christmas. Christmas Eve started out so perfectly for Maria. Snow had fallen and the streets glittered. Maria's favorite cousins were coming over and she got to help make the tamales for Christmas dinner. It was almost too good to be true when her mother left the kitchen for a moment and Maria got to try on her beautiful diamond ring . . . This is the story of a treasure thought to be lost in a batch of tamales; of a desperate and funny attempt by Maria and her cousins to eat their way out of trouble; and the

Inferencing is defined as 'the act of deriving logical conclusions from premises known or assumed to be true', and it is one of the most important processes necessary for successful comprehension during reading. This volume features contributions by distinguished researchers in cognitive psychology, educational psychology, and neuroscience on topics central to our understanding of the inferential process during reading. The chapters cover aspects of inferencing that range from the fundamental bottom-up processes that form the basis for an inference to occur, to the more strategic processes that transpire when a reader is engaged in literary understanding of a text. Basic activation mechanisms, word-level

People share the Earth with creatures large and small. You may not always see them, but they are watching you. Through the densest forests, behind the reeds, across the fields and savannahs, animals keep us in their sights, always ready to dart away from danger. If you have the patience to observe your surroundings, you may catch a glimpse of the different living things sharing your world. Dieter Wiesmüller celebrates the liveliness of nature through his stunning illustrations and lyrical text, which show young readers that animals in the wild are just as curious as they are. Children will love to explore their once-familiar surroundings and figure out what they're seeing-and what's observing them.
