Phil's exhilarating early days recording jazz and commercial jingles at A&R, to his first studio, and eventual legendary producer status, Phil allows you to sit in on the sessions that created some of the most memorable music of the 20th century--including Frank Sinatra's Duets album, Bob Dylan's Blood on the Tracks, Ray Charles's Genius Loves Company and Paul Simon's Still Crazy After All These Years. In addition to being a ringside seat for contemporary popular music history, Making Records is an unprecedented tutorial on the magic behind what music producers and engineers do. In these pages, Phil offers a rare peek inside the way music is made . . . illuminating the creative thought processes behind some of the most influential sessions in music history. This is a book about the art that is making records--the way it began, the way it is now, and everything in between.

Game Design Foundations, Second Edition covers how to design the game from the important opening sentence, the One Pager document, the Executive Summary and Game Proposal, the Character Document to the Game Design Document. The book describes game genres, where game ideas come from, game research, innovation in gaming, important gaming principles such as game mechanics, game balancing, AI, path finding and game tiers. The basics of programming, level designing, and film scriptwriting are explained by example. Each chapter has exercises to hone in on the newly learned designer skills that will display your work as a game designer and your knowledge in the game industry."
