Tightening torque: 20 Nm + 45°.

How to Replace timing chain on VW Golf 5 2.0 FSI - Manuals

Start by making sure the square boss on the end of the exhaust cam is close to square with head surface and that the "A" marking is facing up. Use a wrench on the hex section of the cam to rotate the cam to the proper position. Using a Lock Block marked "A", position the block with the T-slot in block aligned with the stud. If necessary rotate the camshaft with the wrench a little until the stud is approximately centered in slot as shown, then slip the block into place.
