Revisit the thrilling Sam Owens series, with book two in the series from New York Times bestselling author J.T. Ellison. Dr. Samantha Owens is starting over: new city, new job, new man, new life. But before she 's even unpacked her office at Georgetown University 's forensic pathology department, she 's called to consult on a case that 's rocked the capital and the country. An unknown pathogen released into the Washington Metro has caused nationwide panic. Three people died—just three. Amid the media frenzy and Homeland Security alarm bells, Sam painstakingly dissects the lives of those three victims and makes an unsettling conclusion. This is no textbook terrorist, but an assassin whose motive is deeply personal and far from understandable. Xander Whitfield, a former army ranger and Sam 's new boyfriend, knows about seeing the world in shades of gray. About feeling compelled to do the wrong thing for the right reasons. Only his disturbing kinship with a killer can lead Sam to the truth...and once more into the line of fire. Originally published in 2012

“ Shocking suspense, compelling characters and fascinating forensic details. ” —Lisa Gardner, # 1 New York Times bestselling author “ A terrific thriller...fans of forensic mysteries, such as those by Patricia Cornwell, should immediately add this series to their A-lists. ” —Booklist
