Romanesque architecture in Provence (5th–13th centuries) In 380 AD, Christianity became the official religion of the Roman Empire and Christian churches, cathedrals and monasteries were founded all across Provence. Sometimes Roman temples, such as the temple at Nîmes, were turned into churches.

~~Architecture of Provence—Wikipedia~~

Romanesque art is the art of Europe from approximately 1000 AD to the rise of the Gothic style in the 12th century, or later, depending on region. The preceding period is known as the Pre-Romanesque period. The term was invented by 19th-century art historians, especially for Romanesque architecture, which retained many basic features of Roman architectural style - most notably round-headed ...

The Romanesque churches to be found in every corner of France are among the wonders of Europe. Built between 1000 and 1200, their architectural styles vary from region to region, as do their sizes. This period also saw a revival of sculpture, and many of the churches, such as Moissac and Chauvigny, are home to outstanding examples of the art. Romanesque Churches of France, which highlights 100 churches in 10 geographical sections of France—from Normandy and Burgundy in the north to Provence, Roussilon, and Languedoc in the south—will inspire the traveler to explore these beautiful regions as well as those less known, such as Auverne and the Pyrenees. This lavish companion will also be welcomed by anyone with a general interest in the history of France's architecture and sculpture. Peter Strafford, a distinguished journalist, wrote for the Times of London for over three decades.

Read Online Romanesque Churches Of France A Travellers Guide

In a new addition to the Pelican History of Art series, leading architectural historian Eric Fernie presents a fascinating survey of Romanesque architecture and the political systems that gave rise to the style. It is known for its thick walls, round arches, piers, groin vaults, large towers, and decorative arcading, as well as the measured articulation of volumes and surfaces. Romanesque architecture was the first distinctive style to dominate western and central Europe. The book explores the gestation of the style in the ninth and tenth centuries and its survival up to the fourteenth century. Notable structures include Speyer Cathedral, Sant'Ambrogio in Milan, the abbeys of Cluny, and Vézelay, the Church of the Holy Sepulchre in Jerusalem, and Durham Cathedral, as well as the castles of Loches and Dover. A superb teaching tool, close to 400 illustrations pack this seminal text describing the design, function, and iconography of key church, monastic and secular buildings of a formative era.
